

### **Challenge 1:**

Gather research about Hathern using the same focus points as last week.

- The name of the town (Hathern)
  - The language they speak
  - How many people live there
- A monument or place of interest from that area
  - The flag of the country

Present your findings anyway you like!

### **Challenge 2:**

I would like you to research into a 'day in the life of a school child' from your chosen town or city. You may want to think about:

- The time they start school
- How long their school day is
- The holidays they have throughout the year
- Subjects/ lessons they have during a normal day

You may also want to consider why their school life is different to ours.

Is it because their country is hotter therefore they need to be inside at different times of the day? Or do they have shorter/longer holidays than us at different points in the year?

### **Challenge 3:**

I would like you to use the information you have found to compare a day in the life of a Hathern school child and a school child from another town or city. This can be presented in any way you like, using a table, a Venn diagram, as a poster or a Power point.

Have fun and be creative!
