

## Creative Learning Challenge

### Challenge 1

This week I would like you to use the internet to find two different maps. One of Hathern and one of the town or city you have chosen. With these maps I would like you to compare the two places and their **physical geography**. This means things like the rivers surrounding the area and what the landscape is like. You could record your findings however you like.

### Challenge 2

Have a go at creating a model version of the landmark or place of interest you found out about during the first week. This could be using Lego, recycled materials or even natural objects from your garden or that can be collected on walks.

Have fun and take pictures!
