

How a Volcano Is Made

To explain how volcanoes are formed.

1

Cut and stick the different stages of a volcano's life.

2

3

4

The lava and ash that have erupted through the crust build up to form the classic volcano cone shape over time.

This process is happening all the time!

Pressure builds up inside the Earth.

This then affects the Earth's crust, so that magma can sometimes erupt through it.
